# TAIPAN TRADERS

## CHEMICAL SUPPLY SPECIALISTS

GEOFF HALL 0499 555 222 • PHONE: 07 5559 1333 • FAX: 07 5530 6096  
 EMAIL: geoff@taipantraders.com.au • 9 Ilminster Cres, Mudgeeraba, QLD 4213 • ABN 30 775 161 379

**CLEAN/SAINITISED EQUIPMENT = SAFE EGGS**

**BELLSOUTH POULTRY**  
 UNIT 8 / 5-7 VESPER DRIVE, NARRE WARREN, VIC 3805  
**P 03 9796 7044**

### HAZ CHEM- CHEMICAL APPLICATION CHART

	Product	Haz Chem Codes	Product Application
1	<b>Eggceptional</b>	Caution - Poison S5	Dissolve product in stock tank, check chlorine level to be 100-200 ppm, then raise solution temperature to correct level. Recycled Wash Solution Method: Dissolve product in stock tank, regularly check chlorine level to be 100-200 ppm.
2	<b>Eggceptional - Q</b>	No rinse, non-dangerous goods product	Correct method is to use Quat tape to measure 100-200 ppm and use pH level indicator tape to measure.
3	<b>Egg Cleanser</b>	Caution - UN3264 • Poison S5 • HAZ 2X • PGII • DG-Class 8 • EPG.8A1 • Corrosive Liquid Acid Inorganic NOS	Automatic injection via computer pump - pH should be approx 11.0. Temperature for washing eggs in Qld should be approx 43°C. Manual Application: Use product via pH probe or pH paper to gain a consistent pH 11.
4	<b>Egg Tank Cleanser</b>	Caution - UN3264 • Poison S5 • HAZ 2X • PGII • DG-Class 8 • EPG.8A1 • Corrosive Liquid Acid Inorganic NOS	Use 1-2 litres of product in low level water, circulate as long as possible in egg washing machine. Rinse out with fresh potable water.
5	<b>Egg Tank De-Stainer</b>	Caution - UN3264 • Poison S6 • HAZ 2X • PGII • DG-Class 8 • EPG 8A1 • Corrosive Liquid Acid Inorganic N.O.S	Use product neat or diluted at 1 part product to 2-4 parts water. Hand scrub and rinse down with fresh potable water.
6	<b>Egg Equipment Cleaner/Sanitiser</b>	Caution - PGIII • Non Hazedous Bio-degradable	Dilute product to a suggested ratio of 1 part product to 20-40 parts water for best results, hand scrub and rinse down with fresh potable water. May be used via foaming equipment or high pressure water system.
7	<b>Egg Shell Sanitiser</b>	Caution - Poison S5 • PGIII	Dilute product 1 part product to 400 parts water, Spray or dip. DO NOT rinse off.
8	<b>Egg Shed Sanitiser</b>	Caution - Poison S5 • PGIII	Spray or system is preferable, use 1 part product to 30-60 parts water.
9	<b>Cage Cleaner/Sanitiser</b>	Caution - Poison S5 • DG-Class 8 • UN1760 • HAZ 2R • PG III • Caustic Alkali Liquid N.O.S • EPG 8A1	For foam systems or high pressure water cleaning dilute 1 part product to 12-15 parts water. Rinse off equipment with fresh potable water.
10	<b>Poultry Fogging Compound</b>	Caution - PGIII • Poison S6	Use Poultry fogging compound neat in your fogger for optimum results.
11	<b>Poultry Shed Solve</b>	Caution - UN1170 • Poison S6 • HAZ 3Y • PGIII • DG-Class 3.1 • Ethanol Solution	Spray area with product and wipe down using a clean Chux cloth or paper, allow area to evaporate.
12	<b>Taipan Hands - Hand Cleaner</b>	Hazchem 2X • PG III	Manual application - Use Neat - Apply to hands / scrub / rinse off with water. Stops cross infection

**Safety Directions:** Wear eye protection, gloves, rubber apron and boots. Avoid eye and skin contact with solution. Avoid inhalation of powder and or fumes.

**First Aid:** If swallowed contact a doctor or poisons information centre. Phone 13 11 26. If product makes contact with eyes, flush eyes with fresh water immediately for at least 15 minutes. Skin contact remove contaminated clothing, wash skin with neutral soap and water and report to doctor as soon as possible with MSDS data.

**Emergency Phone:** 0417 591 114 or 07 5559 1333
