

Plasson Drinkers for Breeders & Pullets

Plasson makes the world's most reliable poultry drinkers - the "standard of the industry". For more than 40 years, no competitive drinker has been able to match Plasson's features and benefits.

The Plasson Breeder Drinkers are made of a rugged high-impact plastic, formulated to withstand the ravages of the active breeder house for many years.

The unique feature of the Plasson Breeder Drinkers is the ballast bottle, which acts independently of the bell and eliminates wear on the valve mechanism.

Plasson drinkers are supported by a worldwide network of authorized distributors who provide expert installation, full service and a complete line of Plasson products and original spare parts.

- Approximately 10-12 Plasson Breeder Drinkers are needed per 1000 adult birds. (In hot climates, 12-14 drinkers per 1000).
- For optimum efficiency, the working pressure is as follows: Breeder Drinker Bar 0.4-0.6 (6-8 psi). Compact Breeder Drinker Bar 0.4-0.8 (6-12 psi). The pressure can be regulated by means of a pressure regulator or via a head tank.
- The ballast bottle should be completely filled with water up to the water level line. In frost prone areas, add antifreeze to the water.
- Adjust drinkers to the proper drinking height, always keeping the drinker lip a little higher than the bird's back.
- Keep water level in the bell trough as low as possible.

Notes:

1. If wet litter develops around the drinker, check the following:
 - Is the water pressure too high?
 - Is the water level in the bell trough too high?
 - Are the drinkers raised high enough?
2. The Breeder Drinkers in use can easily be converted, for adult turkeys, by replacing the breeder drinker bell and spring with the turkey bell (cat. no. (2104032) and spring (cat. no 2104037).

Compact Breeder Drinker

- **Clip**
2100044
- **20m Nylon Cord**
(2m per Drinker)
2100082
- **Cord Adjuster**
2100018
- **Handle Hook**
2140018
- **Water Level Adjuster**
2140009
- **Mechanism Top**
2140012
- **Mechanism Lock Collar**
2140011
- **Stainless Steel Spring**
2106039
- **Washer**
2140017
- **Washer Support**
2140015
- **Mechanism Body**
2140013
- **Down Spout**
2140014
- **Bell**
2106034
- **Hanger Rod**
2140007
- **Hanger Ballast Nut**
2140008
- **Ballast Bottle**
2106033

* Recommended number of compact drinkers per 1,000 adult birds: 10-12.
* Circumference of outer lip 112 cm. (44.1").

- **Inline Shut-Off (Optional)**
2208025
- **30m Flexible Tube**
(3m per Drinker)
5.7mm I.D.
(9.0mm O.D.)
2100077
- **Union 1/4"**
(2 Units)
2100039

Compact Breeder Drinker Complete
(10 units per carton)
2106000

* U.S. Pat. No. 4,703,721.
Patents granted in many other countries.
