Safety Advice: Taipan Traders strongly advise that the user of this product must read and fully understand both the PDS and MSDS data before using product.

Eggceptional is a quality chlorinated alkaline salts cleaner for washing the exterior of egg shells only. Eggceptional contains effective levels of chlorine to remove poultry soilage and eliminates bacteria and pathogens associated to this industry. Eggceptional may be used manually wearing protective eye and hand wear. This product may also be used in an automatic egg washing machine. Always rinse eggs off with fresh potable water if possible. Always use product at correct temperature and dose rate *Refer to MSDS data for more detailed information.*

CLEAN SANITISED EGGS = SAFE FOOD

WARNING: Gloves and safety glasses must be worn at times whilst using this product in a manual situation. Taipan Traders will not accept any liability for damaged equipment or product through misuse.

Method of Use: Dissolve product in stock tank, check chlorine level to be 100-200 ppm - or for example
Use 100 grams per 10 litres of water to obtain 200 ppm chlorine.
Use 50 grams per 10 litres of water to obtain 100 ppm chlorine.
Use 25 grams per 10 litres of water to obtain 50 ppm chlorine.

Then raise temperature to correct level.

Recycled Wash Solution Method: Dissolve product in stock tank, regularly check chlorine level to be 100-200 ppm.

Discarded Wash Solution: Dissolve product in concentrate solution tank, calibrate concentrate solution feed rate so the diluted wash solution chlorine level is 50-100 ppm.

Storage: Product is to be stored in a cool, protected area. Sheltered from sun and rain. Do not stack drums on top of each other, due to possible chemical hazard. Do not store near other reactive chemicals. Refer MSDS data.

Safety Directions: Wear eye protection, gloves, rubber apron and boots. Avoid eye and skin contact with solution. Avoid inhalation of powder and or fumes.

First Aid: If swallowed contact a doctor or poisons information centre. Phone 13 11 26. If product makes contact with eyes, flush eyes with fresh water immediately for at least 15 minutes. Skin contact remove contaminated clothing, wash skin with neutral soap and water and report to doctor as soon as possible with MSDS data.
